MD ANAS SABAH

Patna, Bihar - 801505

📞 7764975215 ✉ mdanassabah@gmail.com 🔗 md-anas-sabah ⬡ Github 🔗 My Portfolio

Education

Chandigarh University   **Aug. 2020 – May 2024**
Bachelor of Engineering in Computer Science and Engineering   *Mohali, Punjab*

Experience

AgentProd   **April 2024 – September 2024**
SDE-Intern   *Bengaluru, Karnataka*
- Developed and maintained scalable web application from scratch using TypeScript and Next.js, ensuring high performance and reliability.
- Developed an automated feature to extract meeting transcripts from Zoom and Gong, generate notes with key actions, secure AE approval via Slack, update HubSpot CRM, and send client emails summarizing meeting details, unanswered questions, and next steps with answers from Sales RAG.
- Utilized PostgreSQL for efficient database management, leading to a 20% improvement in data retrieval times.

Wiperspray   **Jan 2024 – Mar 2024**
Freelancer - SDE(Frontend)   *Mohali, Punjab*
- Led UI development at Wyperspray using React and TypeScript, prioritizing modularity and code quality.
- Implemented responsive design strategies for optimal user experience on various devices.

INFOWIZ Solution   **June 2022 – Dec 2022**
Front End Developer Intern   *Chandigarh, India*
- Enhanced speed and performance of TypeScript-based web app with React through strategic optimizations.
- Implemented asset lazy loading, reducing page load times and minimizing resource requests.
- Secured seamless checkout process with multiple payment options, shipping address selection, and order confirmation.

Projects

Dev Finder(Video Chat Application) | *Typescript, Next14, PostgresSQL, NodeJs, DrizzleORM, TailwindCSS*
- Built a Next.js pair programming platform with 20% focus on optimization. Utilized Next.js features like Incremental Static Regeneration for speed and Tailwind CSS for efficient styling (10%), ensuring smooth user experience.
- ⬡ Github
- 🔗 Live

Walk Wardrobe(E-Commerce Application) | *JavaScript, Next13, PostgresSQL, NodeJs,Firebase, TailwindCSS*
- Boosted E-commerce efficiency with Next.js SSR/SSG techniques, achieving a 40% reduction in page load times. Elevated user retention by 15% through Redux-powered state management. Enhanced data fetching from Strapi APIs, cutting transfer times by 25% for optimized responsiveness.
- ⬡ Github
- 🔗 Live

The World Oasis(Hotel Management Application) | *JavaScript, ReactJs, React Query, Supabase, RechartJs*
- Developed a React-based Hotel Management System integrating Supabase authentication, enhancing security with a 20% reduction in unauthorized access risk, and employed Recharts.js for insightful data visualization, facilitating data-driven decision-making.
- ⬡ Github
- 🔗 Live

Technical Skills

Languages: JavaScript, TypeScript, C++, Python, C Programming, HTML/CSS,
Developer Tools: Docker, Babel, Webpack, VS Code, ChatGPT, Postman, Android Studio, Figma, Git and GitHub, Firebase, Supabase
Technologies/Frameworks: ReactJS, Next14, , TailwindCSS, Redux, NodeJS, ExpressJS, PostgresSQL, FastAPI, MongoDB

Training

AI Accelerated Full-Stack Development Cohort   **August 2023 – December 2023**
100xEngineers
- Cohort featured a cutting-edge curriculum that combined traditional full-stack development skills with the latest advancements in artificial intelligence and machine learning. This comprehensive training equipped me with a unique skill set, enabling me to develop AI-powered applications.
